

Review Period: Quarter 1 Monitoring Report: 1 July 2018 – 30 September 2018

Performance Measure	Target Set FY19		Historical Trend Line					Achieved FY 2018/19				
	FTIS	FY14	FY15	FY16	FY17	FY18	Вι	ıdget \$		Actual \$		
Provision of a safe and effective blood	Revenue of \$127.40m	\$104.0m	\$109.0m	\$115.6m	\$114.43m	\$121.62	Q1	\$161k	Q1	\$1,549k	+\$1,388k	
service for all New Zealanders through supply and delivery of:	Expenses of \$128.83m	\$103.1m	\$104.3m	\$117.9m	\$114.50m	\$122.19	Q2	\$702k	Q2			
■ Fresh Blood Components	Deficit of -\$1.43m	\$0.9m	\$4.7m	(\$2.3m)	(\$0.07m)	(\$0.57m)	Q3	(\$252k)	Q3			
 Fractionated Blood Products Other Products and Related 							Q4	(\$2,037k)	Q4			
Services							FY18	(\$1,426k)	FY18**	(\$1,375k)		

Quarter 1: Revenue for quarter 1 saw a solid start to the financial year with revenue of \$33.29m being 3.0% above budget and 7.7% up on last year's revenue level. The September quarter's operational earnings saw a surplus of \$1.79m compared with an operational budget of \$7k. The overall reported result was of a slightly smaller surplus of \$1.55m that figure impacted unfavourably by 'non-operating' expenditures of -\$237k – see side table for detail.

The quarter's performance represented a good operational performance with points of note influencing the result noted as;

- > Gross margin at \$10.22m was favourable to budget by 5.0% (\$488k) achieved off higher than budget revenues (+3.0%) and a favourable product mix.
- > Inventory adjustments were favourable in the quarter at \$157k which incorporated two toll fractionation manufacturing runs in July and September,
- Production recoveries at \$16.25m for the quarter were adverse to budget by -\$20k a reflection of the actual production mix as compared to budgeted mix assumptions,
- > General expenditure in the quarter was well contained and totalled \$24.90m which was 4.3% favourable to budget (+\$1.11m) and was a strong contributor to the reported result.
- The foreign exchange position at quarter's end saw an unfavourable movement in the 'mark to market' position of forward currency contracts held of -\$97k which was \$390k unfavourable to budget.
- ** Forecast Full Year Result: The initial forecast for the 2018/19 financial year is for a deficit of -\$1.38m which compares to a budgeted deficit of -\$1.43m. This forecast is based on the expectation of NZBS operating at a similar level of activity to quarter 1 over the balance of the 2018/19 financial year. This outlook of a modest underlying demand growth (+1.66%) greatly assists NZBS in ensuring it can deliver within budget expectations and at the same time maintain the expected quality and service standards expected of NZBS by the sector.

External output measures related to Key	Products and Services	s which contribute to achi	evement of NZBS Endurir	ng Outcome and Strategic	Goal 1	
1 Product and Service availability						
Key products and services are available at all times (24 x 7). Measure is instances when this is not achieved and which could potentially have a negative consequence for patients.	0	0	0	0	0	Q1: Achieved Q2: Q3: Q4:
External output measures related to Den	nand Management and	the relationship with DHE	s which contribute to ach	nievement of Strategic Go	al 4	
.1 Planning and Communication with	District Health Boa	rds (DHBs)				
NZBS will demonstrate a productive and supportive relationship with the DHBs, including proactively engaging with them through the Lead DHB CEO to agree pricing for the next financial year, ensuring that this information is provided in sufficient time to inform preparation of DHB Annual Plans. OTE: Exact measure has changed over recent years.	Feedback received from the Lead DHB CEO stated: "I can confirm from a DHB point of view NZBS has fully met the requirements of its "Planning and Communications with DHBs" performance measure in the 2014/15 financial year".	ACHIEVED Lead DHB CEO confirmed an open communication process with DHBs over price setting and utilisation patterns to inform the new financial year. To quote: "I believe you have developed an open partnership with me which will hopefully see a greater strategic partnership developed".	NZBS assesses its communication obligations to the DHBs and relationship management were met over the course of the 2016/17 financial year However the Lead CEO changed twice during the year with an extended period of no Lead CEO. In these circumstances formal feedback could not realistically be expected.	ACHIEVED NZBS has received the following feedback from the Lead DHB CEO on meeting this target. NZBS has engaged in a positive and proactive relationship with the DHBs throughout the year, via the nominated lead DHB CEO. NZBS via its CEO has remained accessible, available and attentive to the challenges faced by both NZBS and the DHBs. The pricing discussion was well researched and informed leading to a mutually acceptable outcome for both parties.	TARGET NZBS to receive favourable feedback from the Lead DHB CEO on maintaining a greater strategic partnership and the timely and relevant provision of information, including any issue resolution over the course of the 2018/19 financial year. Internally focussed Service Performance Measures relating to achievement of NZBS's five internally focussed strategic goals

These are considered "proxy output measures" in the context of NZBS activities and are key contributors to NZBS's success in achieving its enduring outcome and the external output measures identified in the Strategic Goals Section (Section 4) of the Statement of Intent

	Performance Measures	2014/15	2015/16	2016/17	2017/18	2018/19	2018/19

		Actual	Actual	Actual	Actual	Target	Achieved YTD			
4.	Internal measures related to Donors wh	ich contribute to achiev	ement of Strategic Goal 3							
4.1	Donor Population									
	NZBS maintains a donor population capable of meeting the on-going demand for blood and blood products.		umbers represent the donor exing to ensure demand align		in any given financial	Q1: 107,495 Q2: Q3:				
	Active whole blood & apheresis donor panels.	109,518	110,746	109,781	107,210	106,000	Q4:			
Com	ment: The donor population, split between Who	le Blood, Plasmapheresis ar	nd Plateletpheresis donor panel	s are managed to meet the fo	precast demand profile and for	recast fractionated product sou	irce plasma requirements.			
4.2	Donor Satisfaction (Old Measure)									
	Measure of Overall Satisfaction with the Quality of Service using the Common Measurement Tool questionnaire.									
	Greater than 90% of donors surveyed state that they are either "Satisfied" or "Very Satisfied" with the overall quality of service.	NOT ACHIEVED 88.4%	NOT ACHIEVED 87.9%			ED MEASURE easure below)				
						Target	Achieved YTD			
4.2	Donor Satisfaction (new measure) Measure of overall satisfaction with the quality of service • 90% of donors give an 8 or higher score out of 10 of their experience/satisfaction with the service.	NEW MEASURE IN 20	16/17 FINANCIAL YEAR	ACHIEVED ACHIEVED						

Note: This is a new measure developed by NZBS that is better suited to blood donation and related activities. The reported results are ascertained by internal donor surveys conducted 6 monthly over the financial year. The first survey using this new measure was conducted in June 2017. The survey results will be benchmarked for comparative purposes against the Australian Red Cross Blood Service who have developed and use a similar performance monitoring approach.

Performance Measures	2014/15	2015/16	2016/17	2017/18	2018/19	2018/19
	Actual	Actual	Actual	Actual	Target	Achieved YTD
4.3 Targeted donor recruitment strategies (old measure)						
4.3.1 Increase percentage of Māori donors on the active donor panel from the level achieved in the prior year.	ACHIEVED 9.3%	ACHIEVED 9.8%	NOT ACHIEVED 9.55%		DISCONTINUED MEASURE	<u> </u>
4.3.2 Increase the percentage of youth donors between the ages of 19 – 25 years on the active donor panel from the 2012/13 level of 18.4% of all donors. ²	NOT ACHIEVED 18.8%	NOT ACHIEVED 18.8%	NOT ACHIEVED 17.54%		DISCONTINUED MEASURE	i.
Attraction of youth donors assists in future proofing the service – encouraging new donors to replace those who are retiring.						

Comment: Donor population movement impacts these key performance indicators and for that reason new measures will apply in 2017/18 that set real targets for performance not a shifting % of the donor panel always dependent on demand profile.

4.3 Targeted donor recruitment strategies (New Measure)	Actual	Actual	Actual	Actual	Target	Achieved YTD
4.3.1 Recruit 2,900 new and reinstated Maori donors to the active donor panel (each year measure)	NEW M	EASURE IN 2017/18 FINANC	IAL YEAR	NOT ACHIEVED 2,731 (94%)	2,900	FULL YEAR MEASURE
4.3.2 Recruit 11,000 new and reinstated youth donors between the ages of 16 – 25 on the active donor panel – attracting youth donors assists in future proofing the service by encouraging new donors to replace those retiring.	NEW M	EASURE IN 2017/18 FINANC	IAL YEAR	NOT ACHIEVED 10,211 (93%)	11,000	FULL YEAR MEASURE

NOTE: For clarity, the definition of a new donor is a donor who has made a valid donation for the very first time in New Zealand. The definition of a reinstated donor is a person who has made at least two donations of which one blood donation was made within the last 12 months and the interval between that donation and the prior donation is more than 24 months excluding autologous and therapeutic donations. The first year reporting of these new KPIs fell just short of target. For the Maori donor target there was no discernible reason other than acknowledging the need to maintain in future a specific campaign focus throughout the year acknowledging the main focus in 2017/18 had been on plasma collection to secure the required quantities of source plasma for fractionation. For the youth target there were fewer actual collections days than had been planned due to pressure on the availability of rooms at the universities. Similarly a number of schools rescheduled their originally planned days to later in the financial year adversely impacting the original planned collection timetable.

NEW ZEALAND BLOOD SERVICE ANNUAL STATEMENT OF SERVICE PERFORMANCE MONITORING REPORT FOR THE 12 MONTHS ENDED 30 JUNE 2019

Performance Measures	2014/15	2015/16	2016/17	2017/18	2018/19	2018/19
	Actual	Actual	Actual	Actual	Forecast	Achieved YTD
4.4 Raw Material (Collections) Inputs						
4.4.1 Total Whole Blood donations.	120,099	119,967	111,146	111,588	109,300 Q1: 28,553 Q2: 27,140 Q3: 26,394 Q4: 27,213	Q1: 28,175 Q2: Q3: Q4:
4.4.2 Total Plateletpheresis donations.	3,436	3,145	2,852	2,637	2,700 Q1: 704 Q2: 670 Q3: 650 Q4: 776	Q1: 663 Q2: Q3: Q4:
4.4.3 Total Plasmapheresis donations.	41,438	52,026	53,081	58,441	61,100 Q1: 15,961 Q2: 15,162 Q3: 14,774 Q4: 15,203	Q1: 13,664 Q2: Q3: Q4:
4.4.4 Total donations.	164,973	175,138	167,079	172,666	173,100 Q1: 45,218 Q2: 42,972 Q3: 41,818 Q4: 43,092	Q1: 42,502 Q2: Q3: Q4:

Comment: The level of donations reflect the demand profile noting the ongoing decline in red cell demand (sourced from whole blood) and the continuing focus on plasmapheresis collection to meet source plasma requirements for fractionated product manufacturing.

5. Internal measures related to People which contribute to achievement of Strategic Goal 5

Specific Commentary Relating to the Quarter under Review

Headline Achievements / Activities in September 2018 Quarter:

- NZBS successfully concluded its 2017/18 audit with Audit NZ issuing an unmodified opinion combined with NZBS maintaining the top rating of 'very good' across all 3 control assessment categories namely; (1) Management control environment, (2) Financial information systems and controls and (3) Service performance information and associated systems and controls.
- Over the weekend of 4/5 August 2018 NZBS held its annual TRACE sponsor-supported conference in Auckland with some 230 staff attending. TRACE provides the platform to showcase some of the work undertaken by NZBS and provides staff with the opportunity to hear from some top class speakers headlined this year by Nigel Latta along with a number of recipients who provided heartwarming stories about their lives and how NZBS products had improved or saved their lives. The conference also afforded the opportunity for attendees to meet and share ideas and work experiences with colleagues from around New Zealand.
- NZBS celebrated its 20th anniversary on 1 July 2018 with the occasion marked around the country with a series of events involving staff, donors, volunteers and Board members. The Minister of Health also hosted an event at Parliament on 31 July which was well attended and enjoyed by all.
- The Redevelopment Steering Group continued with the detailed planning for the redevelopment of the major Auckland hub site located at 71 Great South Road, The focus over the September quarter was on Stage 1 National Office fit out and relocation, in order to be tender ready in quarter 2 noting the current National Office lease expires 31 March 2019. Stage 1A being the atrium and new cafeteria for the whole site is also being progressed in part because with the increased staff numbers post National Office relocation the current cafeteria is inadequate raising a number of health and safety issues that can only be addressed by a new site appropriate cafeteria.
- > Other major projects progressing to plan in the quarter were the extension and refurbishment of the Auckland City Hospital blood bank and the rolling implementation of the RATA project being an electronic time and attendance system (Humanforce software) that eliminates manual timesheets and provides automation capability for roster management.

Overall Commentary on Quarter 1 Performance and Full Year Outlook:

NZBS has recorded a solid start to the new financial year and in the expectation of current levels of activity being maintained over the balance of the financial year forecasts an outlook indicating a likely better than budget performance. NZBS continues to make good progress on the range of planned initiatives in the current financial year and considers it is on track to meet its targets as set out in the 2018/19 Annual Statement of Performance.
